

### Core Algorithm My Important Project Hans.Mustermann@deepthought.university Central Picture Project Description Poster Tutorial #4 As next step, we choose some nice settings for all the boxes. These global settings are applied using the boxes option Also, we do not need the auxiliary frame lines anymore and we set showframe=false. % . . . \begin{tcbposter}[ coverage = { interior style={top color=yellow,bottom color=yellow!50!red}, watermark text={\LaTeX\ Poster}, watermark color=yellow, }, poster = {showframe=false,columns=4,rows=5}, enhanced standard jigsaw, sharp corners=downhill, arc=3mm, boxrule=1mm, colback=white,opacityback=0.75,colframe=blue, title style={left color=black,right color=cyan}, fonttitle=\bfseries\Large\scshape ] Process References Contact

Core Algorithm

Hans. Muster mann@deep thought.university

#### **Project Description**

#### Poster Tutorial #5

We make the title box different from the other boxes by removing everything except the background. Also, two pictures are added left and right which should be seen as logos or similar things.

```
%...
\posterbox[blankest,interior engine=path,height=3cm,
    halign=center,valign=center,fontupper=\bfseries\large,colupper=red!25!black,
    underlay={
        \node[right,inner sep=0pt,outer sep=0pt] at (frame.west) {\includegraphics[height=3cm]{pink_marble.png}};
        \node[left,inner sep=0pt,outer sep=0pt] at (frame.east) {\includegraphics[height=3cm]{crinklepaper.png}};
},
]{name=title,column=1,span=3,below=top}{
    \resizebox{18cm}{!}{\bfseries\Huge My Important Project}\\[3mm]
    Hans.Mustermann@deepthought.university
}
%...
```

Process

References

Hans.Mustermann@deepthought.university

#### **Project Description**

#### Central Picture

Core Algorithm

#### Poster Tutorial #6

The references box is filled with a simple enumerate list.

You may insert a more fancier and LATEXier bibliography for your real project ...

```
%...
\posterbox[adjusted title=References] {name=references, column=2, span=1.5, above=bottom} {
  \begin{enumerate} [{[1]}]
  \item\label{litA} Important Authors, \textit{Important Title}
  \item\label{litB} More Important Authors, \textit{More Important Title}
  \item\label{litC} Less Important Authors, \textit{Less Important Title}
  \end{enumerate}
}
%...
```

Surely, you noted that all boxes adapt to the grown height of our references box. Maybe, you want to get some pages back to see how the box placements were done for this example.

#### References

- [1] Important Authors, Important Title
- [2] More Important Authors, More Important Title
- [3] Less Important Authors, Less Important Title

Hans.Mustermann@deepthought.university

#### **Project Description**

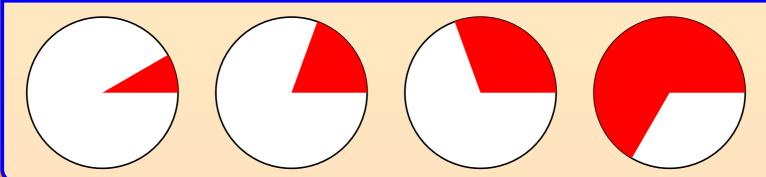

#### Poster Tutorial #7

We go on with the process which gets some example tikzpicture.

Note that you always can insert additional tcolorbox options like halign=center to a posterbox.

```
\posterbox[adjusted title=Process,halign=center]{name=process,column=2,span=2,above=references}{
 \begin{tikzpicture}[very thick,radius=2cm]
   \begin{scope}
      \path[draw=black,fill=white] (0,0) circle;
      \path[fill=red] (0,0) -- (2,0) arc [start angle=0, end angle=30];
    \end{scope}
    \begin{scope}[xshift=5cm]
      \path[draw=black,fill=white] (0,0) circle;
      \path[fill=red] (0,0) -- (2,0) arc [start angle=0, end angle=70];
    \end{scope}
    \begin{scope}[xshift=10cm]
     \path[draw=black,fill=white] (0,0) circle;
      \path[fill=red] (0,0) -- (2,0) arc [start angle=0, end angle=110];
    \end{scope}
    \begin{scope} [xshift=15cm]
     \path[draw=black,fill=white] (0,0) circle;
     \path[fill=red] (0,0) -- (2,0) arc [start angle=0, end angle=240];
  \end{tikzpicture}
```

That's all.

#### Poster Tutorial #8

Central Picture

The project is a breakable box with two parts. Nevertheless, you can fill the box like any other box. The information how to break was already given by the placement options.

Core Algorithm

```
\posterbox[adjusted title=Project Description] {name=project,
    sequence=1 between title and bottom then 2 between title and process}{
 See [\ref{litA}]: \lipsum[1]
  \begin{center}
 \tikz \draw[thick,rounded corners=8pt]
    (0,0)-(0,2)-(1,3.25)-(2,2)-(2,0)-(0,2)-(2,2)-(0,0)-(2,0);
  \quad by [\ref{litB}]
  \end{center}
 \lim [2-3] 
 See [\ref{litC}]:
  \lipsum[4]
  \begin{center}
  \tikz \shadedraw [left color=red,right color=blue]
  (0,0) rectangle (2,2);
  \end{center}
 That's all.
```

The two boxes have a *closed* appearance, because we used enhanced standard jigsaw as global style for all boxes. For an *open* appearance, just use enhanced jigsaw instead:

# Process

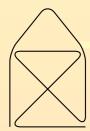

```
%...
\begin{tcbposter}[
%...
boxes = {
    enhanced jigsaw,% <-----
    sharp corners=downhill,arc=3mm,boxrule=1mm,
%...
}
]
%...</pre>
```

#### Poster Tutorial #10

For the Algorithm, we need a verbatim environment. Here, tcblisting is used.

Therefore, we cannot use a posterbox as usual, but we can a posterboxenv environment instead.

Note that you would get some weird errors, if posterbox would have been applied.

#### Central Picture
